

Greater Cincinnati's
Global Peace Meditation Night
(Every last Monday of the Month)

"Over One Year of Service in Light and Peace"

All Welcome to Attend

As the group continues to grow I ask that you email or call to reserve space so I can have enough seats available for everyone.

This group gathers to focus on the highest good and healing of Mother Earth and All her Inhabitants. We have found that toning and meditating are powerful tools to assist in Earth healing. As we join together we form a tremendous vortex of healing energy, support and strength for our own individual journeys. I will also note we have alot of fun too!

Many Thanks to all who join us from other countries, states and elsewhere! I love to hear the feedback from joining in from a distance!
